TEN YEARS AGO TODAY IN RICHMOND

Ten years ago today was a chaotic one in Richmond, for that was the time of the big fire and earthquake in San Francisco. Old-time Richmond citizens will remember the incident when the major portion of San Francisco was reduced to ashes, after being rocked and twisted by the terrible temblor.

The quake occurred very early in the morning and what few inhabitants there were in Richmond at that time ran from their homes to seek protection in the open air and away from falling walls. But there was not a great deal of damage in Richmond and none at all at the Point. There were no buildings along Macdonald avenue this side of Fourth street and for the most part those were scattering. Henry Johnston's brick store at Second street was the best structure in the town and that was terribly wrecked by the earthquake. The windows in front were all broken and the walls cracked. Aside from the injury to the Santa Fe round house and the falling of the chimneys the damage to Richmond property was nominal.

But much of the misery of San Francisco people was witnessed by the people of Richmond and the east bay cities. They came to us for help and for many weeks, while martial law held sway in Oakland and across the bay Richmond was almost swamped with the tougher element of the destroyed metropolis.

But matters gradually adjusted themselves and tranquility reigned after a few weeks. Those who attempted to rob and steal and murder were dealt with by the officers of the law and it was not long before the owners of the destroyed homes in San Francisco set to work with an effort to restore their property, with what success may be determined by the splendid city which has been built on the site where ten years ago today was a seething furnace for hundreds of blocks.

BESIDES THUGS; COPS MUST WATCH LIGHTS

Besides keeping peace and order in this city, the police will also be held culpable for the operation of street lights.

The recent number of complaints filed with the city council of certain sections of the town being in darkness on repeated occasions resulted in the light matter being left with the police department. Vigilance on the part of the officers it is thought will save the city much lighting expense.

GRADE CROSSING LAW FOR AUTO DRIVERS

SANTA ROSA, April 17.—A law
for California that will compel every
automobile driver to stop when he
approaches a grade railroad crossing,
and another law to prevent people
trespassing upon railroad rights
of way are in course of preparation.
This was developed at the hearing
here today by Commissioner Alex-
ander Gordon of the State Railroad
commission on the matter of danger-
ous railroad grade crossings in So-
noma county. Commissioner Gordon
said he thought that such a law re-
quired autoists to stop at crossings
would diminish the number of acci-
dents. He said he felt sure it would
be obeyed, too, if after the third
offense the machine was impounded
for sixty or ninety days.

Representatives of the N. W. P.,
S. P. and Petaluma and Santa Rosa
electric railroad, members of the
board of supervisors and of the city
council, and many other citizens were
present. A number of dangerous
crossings were called to the atten-
tion of the commissioner by wit-
nesses and the commission's chief
engineer was directed to make an
inspection.

"We must protect innocent lives,
even if a reckless chauffeur is kil-
led," said Gordon in summing up.
"Some automobile drivers seem to
deliberately kill themselves. There
are about 13,000 grade crossings
in California, and the situation in
this state is more dangerous than
in any other, I believe."

It was declared that the railroad
had to protect the users of its re-
ducer of profits, the automobile.

NOTES FROM THE PLAYHOUSES

PANTAGES THEATRE
(Oakland)

Oakland this week will be "Cover-
ed" by several of the best known
motion picture directors and "loca-
tion men" in the motion picture
world, with "locations" for film
comedies will be gone over, all
scenic points inspected, indexed, and
laid out for use in film plays, and
the entire city and east bay region
laid out as possible scenes for
motion picture comedies. This
work is being done under the direc-
tion of Christo Richards, the fam-
ous motion picture comedian who
is to head the acting forces of the
new Pantages motion picture studio,
which, if present plans are carried
out, will be established in Oak-
land within the next few months.

The studio will turn out all films
for the vaudeville circuit as well
as for general exhibition in all
parts of the world. A mammoth
comedy organization will be estab-
lished, to be the largest of its kind
in the world, and another depart-
ment will turn out other important
films.

"Personally I favor Oakland for
the studio," declared Richards.
"And I have so informed Mr. Pan-
tages and his associates."

Richards will confer with Secre-
tary Joseph E. Caine of the cham-
ber of commerce and other business
men. He declares that he must
have the backing of all business
men, that he may, on occasion use
their factories or buildings in his
work. He will entertain as his
guests at the Pantages theater this
week the members of the manu-
facturers' bureau, when, as a fel-
low factory man, he will exhibit the
comedy which is his principal out-
put.

The motion picture experts will
cover the scenes and factories of
Oakland, University of California,
Berkeley hills, Alameda beaches, and
will visit Richmond, Niles, Hay-
wards, and Mount Diablo. Man-

GRIPPING PLAY AT REGENT TONIGHT

STIRRING SCENE FROM "SECOND IN COMMAND" AT THE REG-
ENT THEATRE THIS EVENING.

"The Second Command" a Metro
picture is the feature tonight with
Francis X. Bushman and Marguerite
Snow in the leading roles. A brief
synopsis of the story follows:

Mr. Bushman convincingly and
masterfully portrays the dashing
young English officer, Lieutenant-
Colonel Miles Anstruther, first in
command of his regiment, who wins
the woman he loves, only to lose
her through a misunderstanding
created by his rival, and his sweet-
heart's brother, whom he has shielded
from ruin and disgrace. Before
the snarl is unravelled, Anstruther
is ordered to service in Africa,
where, under fire, he dramatically
effects the rescue of his brother-
officer, who remorsefully confesses
to the plot that had separated the
lovers. After a struggle with self,
Anstruther generously forgives his
weak and wounded rival, and mag-
nanimously directs that the Victoria
Cross, about to be awarded Anstruth-
er, be given, instead to his erst-
while enemy, who had been hurt in
trying to bring aid to Anstruther's
regiment. Anstruther returns to
England to find his sweetheart mor-
ning him as dead. At their dramatic
meeting, she learns of the mistake
that had come between them, and
Anstruther finds the reward of his
nobility and sacrifice in her love.
His rival, recognizing the greatness
of the man whom he had sought to
injure, because of jealousy of his
rank, and the woman they both love,
is at last content with being still
"Second in Command," and kind to
salute Anstruther as his superior
officer.

No expense has been spared to
make the production an elaborate
and realistic one. Two other pic-
tures will be shown.

Fletcher Fields, of Walla Walla,
Washington, is visiting in this city
for a few days.

Her record of thirty-one revolu-
tions is done at every perform-
ance she gives on her present tour
of the Orpheum circuit and she
practices continually to increase it.
Sometimes she can complete sev-
eral more revolutions but generally
thirty-one is the limit and, as she
feels she can complete this number
whenever she wants to, she has not
yet attempted to do more as a
part of her regular performance.
Her record is one that very few of
the world's greatest dancers have
attained. That is why she is re-
garded as a pirouette queen.

Miss Powell was one of those
Americans who was in Berlin when
was declared. She has a
brother who joined the allied army,
but she is for the Stars and Stripes,
first, last and all the time.

"Let me tell you something,"
said she recently as her faced
lighted up, "you hear all these
songs about the dear Old Flag but
you do not know what the flag
means until you have been from
under it and then enter an Ameri-
can harbor where it is flying. Its
white is its purity; its red is for
the noble blood spent in defending
it; and its blue is the deepest dye
of eternal right to the winds of
heaven."

was declared. She has a

SCHOOL CHILDREN GIVEN HOLIDAY TO SEE THE BIG ANIMAL CIRCUS

Miss Emma C. Miller, the only woman circus press agent in the world, was in town again this morning and arranged with the Richmond board of education for a holiday for the children and not only will they be able to see the circus, but they will not miss the big parade which takes place in the forenoon.

For tomorrow is circus day and it will be a large one for everybody—the children and grownups, too. The tots are to assemble at the circus grounds at 1 o'clock sharp and they will be taken in charge by the circus attendants and introduced to all the wild animals, and the tame ones, too.

There will be kind lady attendants for the girls and men attendants for the boys and not only will they be shown everything and instructed in the ways of the animals, but every attention will be given them to add to their comfort. Al G. Barnes will be on hand to give his personal attention in order to make the big event one long to be remembered in the lives of juvenile Richmondites.

Miss Miller interviewed Professor W. T. Helms this morning and pointed out to him that Al G. Barnes is the only circus man to give a midweek circus performance in Richmond and that it was strictly an animal show and not a cheap, gaudy circus of the old stripe. She told him the performance was largely educational as well as amusing and that she was quite sure the parents of children in this city would appreciate a holiday for the school children. Professor Helms readily saw the point and granted the holiday as requested.

Therefore all may see the parade and afterward they will be permitted to see the big show in its entirety. Al G. Barnes never does anything in a halfhearted way and all can be assured that they will get their money's worth and more, too.

Mr. Barnes, whose natural love and understanding of the animal kingdom, his exceptional ability to make them feel his magnetic, confident, fearless personality. Animals from every part of the globe come under his masterful domination, go his bidding, giving the world his ideal of entertaining accomplishments, making an actor of every one of his 1000 wild and domestic animals.

His coalition of 150 superior animal trainers and educators, each performing his assigned duties with perfect decorum, form a great part of the harmonious whole of the Al G. Barnes circus.

Neither money, energy, time nor patience are spared in his efforts to please. Horses are his pet hobby. Five hundred and fifty priceless horses, ponies and mules are seen as proficient actors. Denver, Romeo, Cuba, Marcus, the famous \$40,000 quartet of Arabian stallions. Tot, Tiny, Altom, the smallest performing horses. Bob, Chocolate, Black Knight, famous dancing horses, and a group of highly educated high school horses do the "Tango" while military horses whirl, whirl, circle, wheel about and maneuver in true military fashion, the finest and best trained horses before the public.

A \$50,000 challenge group of roaring, raging African lions, 30. In one act, handled by Herr Louie Roth. Samson, the largest lion in the world, rides to the top of the tent surrounded by flaming sky-rockets. Pilate, Brutus, Caesar, known as the horse riding lions, leap through hoops of fire onto the back of a running horse.

Petite Mlle. Florine, with her snarling, biting, treacherous leopard, in leaping, vaulting, tumbling gyrations. The great African pumas, catlike and carnivorous, under the supervision of Miss Pearl Hamilton, whose dexterity is seen in the clever, adroit manner she handles her pets.

The only known performing sebras, Holy Moses, the only black camel in the world, and performing llamas are entirely new features this year and can only be seen in the Barnes circus. Boxing kangaroos, wrestling bears, juggling and musical sea lions. The greatest single collection of riding, frolicking, man-acting monkeys, apes and baboons, elephants, goats, pigs, are seen as true comedians.

Pleasure and knowledge being characteristics of the Barnes circus, no one in Richmond will miss the rare opportunity to see this circus, and enjoy the three hours of intelligent, laughing amusement, when they show here. There will be the mile-long free street parade making an actor of every one of his 1000 wild and domestic animals at 10:30. Doors will open at 1 and 7, the performances starting an hour later.

OPERATOR BOWLS 290 MAKING CITY RECORD

George T. Griffin, a linotype operator, hung up a bowling score of 290 out of a possible 300 at the Seventh street alleys last evening for Richmond bowlers to shoot at.

The score is the highest made in this city as well as the county. Griffin is regarded as Richmond's clearest bowler.

"I NEVER WORRY ABOUT MY CLOTHES, GLADYS"

"Well, you don't need to, Jessie. I wouldn't worry, either. If I had the lovely clothes you have."

"Why, it would be just as hard for me to dress stylish as it is for you, Gladys. If I did as you do and tried to pay cash for my things."

"THAT'S why I never worry—I just buy my clothes ON CREDIT!"

"I go to CHERRY'S. It's the leading Credit Clothing Store in town, with a long list of steady, enthusiastic customers. The styles there this spring are simply gorgeous, Gladys! It would be foolish for me to LOOK elsewhere, for I always find what I like best at CHERRY'S."

"Well, your clothes show it, Jessie. Did you buy that classy dress of yours at CHERRY'S?"

"Of course I did! I'm paying for all of them on installments, and you can choose from dozens of assortments just as pretty, and buy what you want ON CREDIT, too."

"Their stock of extra skirts are the best in the city, Jessie. They have the sport skirts and all others that are classy, at most any price you desire."

Perhaps you know CHERRY'S address. Their ladies' store is at 515 13th street, and remember they have another right across the street at 528 13th street. Their two San Francisco stores are located at 1009 Market street and 2400 Mission street. Other stores on the Pacific coast are at Portland, Tacoma, Sacramento and Los Angeles.

New York-Brooklyn postponed, wet grounds.

RABBIT LOOSE WITH \$25 CHECK ON TAIL

STOCKTON, April 18.—More than 5000 jackrabbits were killed in a rabbit drive in fields near Escalon, twenty miles southeast of here.

Participating in the shoot were more than 2000 hunters, and after the slaughter a picnic luncheon was served by the committee in charge of the affair. A \$25 check had been tied to a rabbit which was turned loose yesterday, but that animal was not killed.

CHIEF EFFORT NOW IS TO PROTECT THE TROOPS

EL PASO, April 18.—Hunting for

Francisco Villa is a secondary matter with the military authorities today. Protection of the American expedition in Mexico is the main thing.

General Pershing is understood to have reported thus to General Funston. The question as to whether the body exhumed by Carranzistas is really that of Villa is considered important, but the safety of the expedition, following the Parral clash and the Mexican request that it withdraw, is uppermost in the minds of army men on the border.

Pershing has returned to Namiatupa, midway along the communication lines, where he will be able to watch the situation more closely and better direct the army. No Americans are believed to be south of Santa Cruz.

Mexicans, the only persons who professed to have direct knowledge that Villa's body had been found, claimed that the telegraph wires were down and that this prevented the receipt of further information. While their failure rapidly to produce the body for American identification increased the skepticism here, the delay may possibly be due to natural causes like slow transportation. It was pointed out that the Carranzistas may be honest in their claim that they have found Villa's remains, and yet may themselves be hoaxed or laboring under a misapprehension.

MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back
hurts or Bladder bothers.
Meat forms uric acid.

If you must have your meat
every day, eat it, but flush your
kidneys with salts occasionally, says
a noted authority who tells us that
meat forms uric acid which al-
most paralyzes the kidneys in their
efforts to expel it from the blood.

They become sluggish and weaken,
then you suffer with a dull misery
in the kidney region, sharp pains in
the back or sick headache, dizziness,
your stomach sour, tongue is coat-
ed and when the weather is bad you
have rheumatic twinges. The urine
gets cloudy, full of sediment, the
channels often get sore and irri-
tated, obliging you to seek relief
two or three times during the night.

To neutralize these irritating
acids, to cleanse the kidneys and
flush off the body's urinous waste
get four ounces of Jad Salts from
any pharmacy here; take a table-
spoonful in a glass of water before
breakfast for a few days and your
kidneys will then act fine. This
famous salt is made from the acid
of grapes and lemon juice, combined
with lithia, and has been used for
generations to flush and stimulate
sluggish kidneys, also to neutralize
the acids in urine, so it no longer
irritates, thus ending bladder weak-
ness.

Jad Salts is inexpensive; cannot
injure, and makes a delightful ef-
forescent lithia-water drink.
